

TITLE
FOREST FRAGMENTS OF THE SÃO JOÃO RIVER WATERSHED

- LEGEND**
- BR-101
 - ☐ Human activity in São João River Basin
 - ☐ Forest Fragments

Problem: We need 2,000 GLTs in connected forest fragments to save the species! You have **3 minutes** to plan where to plant **2 forest corridors** to reach that goal. Look in the map for the numbers of GLTs (2014 census) in each forest fragment.

TECHNICAL INFORMATION

Datum: GCS: SIRGAS-2000
 Scale: 1:250.000
